

FANTASY STUDIOS

AT ZAENTZ MEDIA CENTER

STUDIO A DESCRIPTION AND LAYOUT

Studio A is the most requested tracking room in Northern California, boasting a 2 ½ story room that sounds sublime. The room can accommodate up to 60 musicians comfortably and is tuned in a way that gives an incredible, large, and present sound to all instruments.

The biggest names in all styles of music and production continue to record here, taking advantage of this exceptional facility.

For me, it's the one place where I can put 8 musicians on the floor, and have them make a bunch of noise and know that the sweetness of the room will hold up. Victor Krummenacher
